

REHABILITATION DIAGNOSTIC SPA CENTER «MED-PALACE»

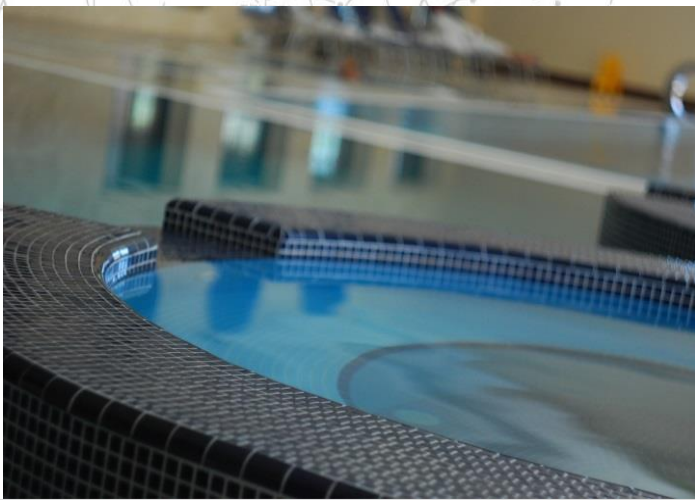

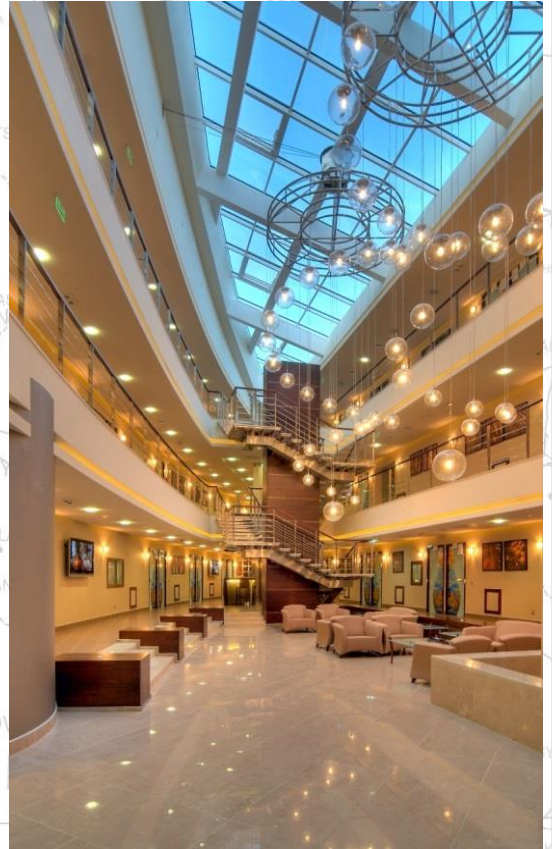

DESCRIPTION

«Med Palace» - is a unique complex in Western Ukraine, which has the most modern medical equipment from leading manufacturers. Its modern building with total area more than 10 thousands sq. metres, and is able to serve nearly 1 thousand of visitors at once.

«Med Palace» is a multifunctional medical complex, which consists from diagnostics center, hydrophatic and SPA-center.

Another merit of the Mirotel Resort & Spa is a diagnostic and treatment center Med-Palace. The Center provides 350 methods of diagnostics (ultrasound, endoscopy, X-ray, lithotripsy, laboratory research). This approach is based on the principle "Successful treatment starts from true diagnosis". Main directions of diagnostics are urological, cardiology, neurology, gynecology, otolaryngology, proctology and many others.

Unified digital database keeps all the results of the researches and patients can receive the information on any digital device. The Mirotel Resort & Spa has a covered passage to the Med-Palace which is comfortable for the guests of the hotel to visit the spa and hydrophatic.

DIAGNOSTICS

Opened in Autumn 2008 the Center of Diagnostics in multifunctional complex "Med-Palace", which is already the fame of the most modern medical facility Truskavets where rehabilitation and water treatments along with SPA services are granted on high-quality standard for more than two years.
